

92-200, 92-210,  
92-205 & 92-220

## APPLICATIONS

- Prepared meals
- Fruit and vegetable processing
- Dairy processing
- Food distribution
- Catering

# VersaTouch™

New and Improved Single-Use Nitrile Gloves from Ansell

## COMFORT, DEXTERITY AND PROTECTION FOR FOOD PROCESSING

Demonstrating Ansell's commitment to quality, the new VersaTouch™ single-use nitrile gloves have been manufactured utilizing improved processes to deliver gloves with longer wear, increased tear strength and better grip in dry conditions. These improvements do not come at the price of comfort. New manufacturing processes have also resulted in a thinner glove which provides enhanced fingertip flexibility and improved overall comfort.

The gloves include a beaded cuff which prevents liquid from rolling down the glove onto the arm or wrist. The latex-free formulations means the gloves pose no risk of Type 1 allergies. Both gloves are also approved for food contact applications, making them ideal for handling all fatty food. The VersaTouch™ 92-200 and 92-210 are made of a blue-colored nitrile, a security feature designed to offer clear visual indication in case of accidental presence in food substances.

The construction and textured fingertips of the gloves provide good comfort and tactility for sensitive, precise handling.

**In end-user testing, a majority of food processing workers preferred the VersaTouch™ 92-200 glove over a competitor glove. Top three reasons for this preference included fit/comfort, dexterity and breathability.\***

| 92-210  | Blue  | Nitrile  | Rolled Beaded | Textured | 240         | 0.1            | Poly-Bag  | 100           |
| 92-220  | White | Nitrile  | Rolled Beaded | Textured | 240         | 0.1            | Poly-Bag  | 100           |

**WELCOME TO VERSATOUCH™, ANSELL'S LINE OF HAND PROTECTION AND APPAREL PRODUCTS THAT PROVIDE COMPREHENSIVE SOLUTIONS FOR APPLICATIONS ACROSS THE FOOD PROCESSING INDUSTRY.**

In 2011, Ansell embarked on the process of strategically re-aligning its food processing product portfolio to better serve the needs of the industry. In 2012, Ansell will roll-out a full VersaTouch™ product portfolio that will feature high-performance

reusable gloves for managing cut and thermal risks, fully immersible gloves for working in liquid environments, and single-use gloves for versatile wet and dry applications.

VersaTouch™ products will not only be specifically designed to improve and protect food processing operations but will be organized and presented in an easy to understand manner. Selecting the right product for the application has never been easier!
