

Declaration of Conformity
in accordance with Regulation (EC) 1935/2004

the
Ampri Handelsgesellschaft mbH
Benzstr. 16
21423 Winsen (Luhe)
Germany

confirms the conformity of article
01037 Med Comfort Premium Grip Latexglove, powderfree, white
with the rules of the
Regulation (EC) 1935/2004,
the german feed and food code - LFGB,
Regulation (EC) 10/2011, (EC) 2017/752, with regard to the migration behaviour,
and the german recommendation XXI of the german feed and food code.

Specification of the intended use or limitations

The latexgloves can be used uncritical during the preparation and treatment of food. They can come into direct contact with dry, acidic and aqueous kind of foods for a short time.

Tested with the following simulant solutions; coconut oil, acetic acid 3%, Ethanol 95%, Isooctane, under the following test conditions 10 minutes 40°C and 5 minutes 20°C

Declaration of Conformity
in accordance with Regulation (EC) 1935/2004

sensory inspection:

Simulant solution	conditioning	Examination	results
Coconut oil	10 minutes 40°C	Visual change	Not detectable
Coconut oil	10 minutes 40°C	Odour change	Not detectable
Water	10 minutes 40°C	Taste change	Not detectable

Result of the overall migration:

Simulant solution	conditioning	Overall migration mg/dm ²
Acetic acid 3%	10 minutes 40°C	33,6
Ethanol 95%	10 minutes 40°C	< 2,5
Isooctane	5 minutes 20°C	9,5

Results of the specific migration

compound	Simulant solution	result	Target value
Formaldehyde	-	< 0,02 mg/kg	≤ 3 mg/l
Primary amines	photometric examination	< 0,02 mg/l	≤ 0,02 mg/l
N Nitrosamines	-	Not detectable	≤ 1 µg/dm ²
PAH	Ultrasonic extraction with toluene	< 0,2 mg/dm ²	≤ 0,2 mg/dm ²
Zinc	Total content	0,2080%	≤ 3%
Cadmium	Total content	< 1 mg/kg	≤ 100 mg/kg
Lead	Total content	< 1 mg/kg	≤ 100 mg/kg

restriction: none

The valuation basis for the glove-application is a surface-to-volume ratio of 8,4 dm² per 5 kg food for glove application.

Declaration of Conformity
in accordance with Regulation (EC) 1935/2004

Test report Nr. (25419)023-420763

Issued by Bureau Veritas, Hamburg

The total migration as well as the specific migration are below the legal limits when used according to specifications. The test was performed in accordance with Regulation (EU) No. 10/2011 (Annex V), (EU) No. 2017/752

The requirements for materials and raw materials of the Plastics Ordinance
(EU) No. 10/2011 is not applicable to protective gloves.

The traceability according to Regulation (EC) No. 1935/2004 of the product is guaranteed by the batch number.
