

Checklist for Delivery free point of use

To guarantee best possible conditions for the delivery, it is essential to complete the document below in its entirety and return it to us. The costs of a delivery at your place of use are subject to accessibility constraints to your site.

Our delivery service includes:

- Scheduling of the delivery with a contact person on site
- Delivery to the point of use
- Unpacking
- Recovery of the packing for recycling

Product information (*unpacked*) :

Equipment/item	Quantity	Length (cm)	Height (cm)	Width (cm)	Net weight (kg)

Delivery information:

Company/Recipient:	
Department	
Street / number:	
ZIP / City:	
Contact person:	
Telephone:	
E-Mail:	

If you have some specific requirements or access constraints, please provide us all necessary information on the next pages.

If no additional information is provided, you hereby confirm:

- That the delivery to the place of use takes place in a clear area accessible without stairs (or accessible with a ramp).
- That if the delivery takes place to an upper floor, there a lift is available with wide enough doors and passages, as well as a large enough maximum load to place the device.
- That all doors and passages are wide enough to circulate with the device.
- That no carrying, lifting, or stacking is necessary.

In case of inaccuracy of the data provided or conflict on one of the above points at the time of delivery, the eventual extra costs will be fully invoiced.

Checklist for Delivery free point of use

Additional Information & Services

The unit must be carried through staircases:

Delivered to floor number:

Type (A-J)	Length (cm)	Height to ceiling (cm)	Width (cm)	Additional remarks (e.g. load capacity of the stairs if relevant)

Additional obstacles to the place of use (narrow doorways or corridors, low doors):

Obstacle	Length (cm)	Height (cm)	Width (cm)	Additional remarks

Is any additional lifting needed:

☐ Stacking of units ☐ Placing the unit on a table/working bench

Take back of an old unit for scrapping:

Equipment/item	Quantity	Length (cm)	Height (cm)	Width (cm)	Net weight (kg)	Refrigerant (yes or no)

*We offer a scrap disposal for BINDER devices as well as third-party devices on demand. For the scrap disposal of third-party devices with or without refrigerants, we need a safety or product data sheet that includes all information about the unit and eventual refrigerant

Additional information:

Please enter any additional information that could be relevant to us for the delivery.

--

In case of inaccuracy of the data provided, the eventual extra costs will be fully invoiced.
