2nd March 2015

Azlon® new wide mouth vented wash bottles & replacement caps

New products for 2015

SciLabware is pleased to introduce new DIY and plain wide mouth wash bottles, each with our popular Azlon DripLok® venting system, which include:

Vented wide neck wash bottles

Azlon plain, wide mouth, wash bottles are now available with our DripLok®, anti-drip, venting system to minimise solvent loss. These new wash bottles are available in capacities of 500ml and 1000ml in any of six colours for ease of identification.

DIY custom wash bottles with mixed colour caps

Our popular 500ml wide mouth DIY custom wash bottles are easy to fill and are now available in a lab pack containing each of five new cap colours for ease of identification. The wash bottles incorporate our unique DripLok® venting technology to minimise solvent loss and come complete with write-on panels and self-adhesive safety labels.

Coloured caps for vented wide neck wash bottles

Packs of caps for our wide mouth wash bottles are now available in six colours. Each pack contains five caps of a single colour for use with Azlon wide mouth wash bottles. The caps are assembled complete with Azlon DripLok® vents and polyethylene tubes.

One of our sales representatives will contact you to assist you with these and other products from our range.

If you require any further information for these or any other SciLabware products then please visit www.scilabware.com

Kind regards

Michael Fowler
